ARBURG

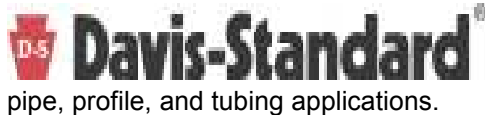

Newington, CT- Injection molding machines 14-618 tons.

Newton, KS - Magnets for the plastics industry.

**CST
STORAGE**

Kansas City, KS – Distributor for welded and bolted silos.

Pawcatuck, CT – Extruders and complete systems for pipe, profile, and tubing applications.

East Windsor, CT - Desiccant bed dryers, portable cart drying systems, hot air dryers, machine mount dryers. **U.S. Distributor for Sytrama Robots.**

Wickliffe, OH – EMI Conveyor systems, parts separators, automated filling stations, and weigh-scale hoppers. End-of-arm-Tooling (EOAT) for robotics, injection molding accessories, water-flow products, and hot-runner controls.

extrusion services, inc. Akron, OH- The leader in the design and manufacture of automated downstream extrusion equipment and systems.

East Dundee, IL - Global leader in plastic cooling and temperature control solutions. The Frigel Ecodry approach is a revolutionary change in plastics cooling that is reducing cycle times, improving part quality and saving energy, water, and maintenance expenses. Proven equipment in over 5,000 installations worldwide.

East Douglas, MA - Beside-the-press granulators, central systems, thermoforming granulators and blower systems.

Mississauga Ontario - Vacuum, pneumatic, and mechanical material conveying equipment. Modular hopper systems and state-of-the art control packages.

Fredericksburg, VA - Products for air-treatment systems including rotary-screw compressors, blowers, vacuum packages, controllers, and dryers.

Aston, PA - Gravimetric blenders, color and additive feeders, liquid color pumps, and pre-mixers.

Erie, PA – Stocking distributor of bolted couplers, tubing, bends, flex hose & quick change couplers.

Cumming, GA - Sales and installation of silos, material conveying, and water recovery systems. Material handling equipment including surge bins, tilt-tables, box dumpers, auger conveyors, and mixing blenders

Louisville, KY - Shredders designed by Republic offer highly innovated and engineered models including the unique Split-A-Part Single Shaft Shredder. These machines have set a new standard for performance, efficiency, and maintenance friendly features.

Shaping your projects

Norcross, GA – All-electric blow molding machines for technological solutions for bottles and containers in PET, PP, PLA and other resins.
